

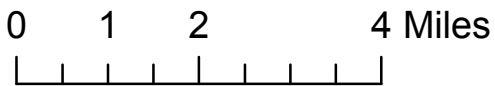

**Figure 2**  
**2008 Arsenic Exceedances**

Well Type

- ♦ monitoring
- purveyor

Washington State Drinking  
Water Standards

Arsenic  
Maximum Contaminant Level = 0.01 mg/L  
Trigger Level = 0.005 mg/L

Well Average is average of all  
arsenic data available for the well.  
Trend determined using the  
Mann-Kendall trend test.
