WHERE:

Please join us for a virtual open house to discuss a potential roadway improvement project in your neighborhood. There will be two options for your convenience, both sessions will cover the same topics so choose the day that works best for you!

Spokane County is seeking funding from the Department of Ecology to improve air quality in your neighborhood by reducing the amount of fine particulate matter through a dust mitigation project. Spokane County values your opinion and encourages your participation.

The meetings will take less than a half hour and the remaining time will be used to document your opinions, questions, and concerns.
